

FOSTERING COORDINATION TO IMPLEMENT

Uganda's Digital Transformation Roadmap

The successful implementation of the Digital Transformation Roadmap requires effective coordination among the actors of the digital ecosystem, fostering multi-stakeholder collaboration and ensuring optimisation of efforts and resources to achieve our goals.

Mapping the Digital Savannah

On 26 May 2022, the Ministry of ICT and National Guidance, together with the AU-EU Digital for Development (D4D) Hub, organised a multi-stakeholder workshop to map the main actors in Uganda's digital ecosystem, common topics, and ongoing activities.

Scan this code to consult the mapping:

INNOVATION AND ENTREPRENEURSHIP

- Support innovators in regions
- Encourage local demand
- Enabling environment

DIGITAL SKILLS

- Sharing curricula and toolkits
- Public awareness
- Links to education sector

DIGITAL INFRASTRUCTURE AND CONNECTIVITY

- Bringing down cost of data
- Green transition and environment
- Emerging technologies

CYBERSECURITY, DATA PROTECTION AND PRIVACY

- Enforcement and investigations
- Cooperation with justice, law, and order sector
- Data strategy

DIGITAL SERVICES

- Ensuring interoperability
- Standards and ontology
- Registries (one single truth)

Coordinating the implementation of the Digital Transformation Roadmap

On 19 April 2023, the Ministry of ICT and National Guidance and the AU-EU D4D Hub gathered Uganda's digital ecosystem to discuss how to jointly support the implementation of the Digital Transformation Roadmap. As a result, a coordination structure has been set up:

Digital Transformation Program Working Group (Ministry of ICT and a co-chair)

Task Force
for Digital
Infrastructure
and
Connectivity

Digital Skills
Technical
Working Group
(led by Enabel)

Digital Services
Working Group
(led by Cluj IT
and ESTDEV)

Working
Group on Data
Protection and
Cybersecurity
(involving
JLOS sector)

Multi-
stakeholder
working group
on Innovation
and
Entrepreneurship

Donor Coordination Group (Rotating chair)

About the AU-EU D4D Hub project

The African Union – European Union (AU-EU) Digital for Development (D4D) Hub supports African institutions to create an enabling environment for an inclusive and sustainable digital transformation. The project provides demand-driven technical assistance, promotes knowledge sharing, and facilitates multi-stakeholder coordination and dialogues. The AU-EU D4D Hub is a Team Europe project, co-funded by the European Union and jointly implemented by eight European organisations. It is part of the D4D Hub, an EU-led platform that creates and leverages partnerships to shape a sustainable digital future worldwide.
